The Union League Club Declares Itself a Republican Organization—Mr. Depew's Candidacy.

New York, April 18.—[Special.]—The Cathedral of the Incarnation, in Garden City, L. I., Mrs. A. T. Stewart's lasting memorial to her husband, was opened for public worship today. The last touch of embellishment was added to the interior of the edifice, which is the finest ecclesiastical structure on Long Island, when the workmen employed upon the building were dismissed from St. Mary's Church in Manhattan Beach and erected the screen that stands behind the altar. The screen is of white marble, and consists of a succession of eighty sculptures from Bible incidents, chosen by the architect. The Bishop contributed an appropriate to the memorable event which the clergymen who were to assist him in the ceremonies were invited to meet at the palatial residence of Mrs. Stewart, on Fifth avenue, this morning, and from there they went in carriages to the cathedral. Among those present were Bishop Potter, Dr. Rainsford, Dr. Huntington, Dr. Parkhurst, Dr. Greer, Dr. Satterlee, Dr. Hall, Dr. Duffield, Dr. Hoffman, Dr. Dix, Dr. Morgan Dix, Dr. Huntington, Dr. Donald, Dr. Mottet, Dr. Ewer, Dr. Hastings, Dr. Hall, Dr. Hoffman, Dr. Dix, Dr. Morgan Dix, Dr. Huntington, Dr. Donald, Dr. Mottet, Dr. Ewer, Dr. Hastings, Dr. Hall, Dr. Duffield

The Commissioners are suspicious of the motives and intentions of the boatmen who are agitating the question of reduction, and propose to watch their movements closely before making any changes. A meeting of the delegates from the lodges of the I. O. O. F. of Chicago was held at Bricklayers' Hall last night to make arrangements for the semi-annual session of the Grand Lodge of Illinois, which convenes in this city on the 21st inst. Reports were received from the various committees, showing that the arrangements are nearly completed. The session will be held in Central Music Hall, and will last three days. The Grand Lodge will be composed of 200 delegates, and it is expected that 1,000 members of the order will be present during the session.

Commissioner Hoyne received a letter yesterday from a country resident of Maine, who, after making a trip of three days in Europe, under a stream of speech to all. He says that he has confidence in Judge Bridgeman's courts, and that the case was without a doubt. The gentleman from the country thinks that Judge Bridgeman had no right to let the prisoner out on bail, and that the case should be settled by the Supreme Court. The letter was referred to the Corporation Counsel, who will probably say that the Judge had the right to do as he did, and that the case will be settled by the Supreme Court.

THE RISING QUESTION.

Shall We Eat Lime with Our Bread?

It is a fact no longer questioned that all the baking powders with the single exception of the Royal, contain lime or alum. Prof. Love's report as analyst of the New York State Board of Health, revealing lime impurities, and Government Chemist Mott's report showing the alarming use of alum, have conclusively established the presence of these substances. Eminent analysts have found in some of the powders, notably those so prominently [illegible] times, 10.7 per cent of lime alone.

Everybody is interested in this wholesale debasement of food. The public health is no doubt injuriously affected by the large amount of lime that is thus taken into the system, for—although perfectly pure food is produced by the use of Royal Baking Powder, which is free from lime and absolutely pure—many of these adulterated baking powders are still imposed upon consumers by the false advertisements with which they are placed before the public.

No Lime in Royal Baking Powder.

Chemical tests have likewise proved the Royal Baking Powder to be free from lime and absolutely pure. This results from the exclusive use of cream of tartar specially refined and prepared by patent processes by which the tartrate of lime is totally eliminated. The production of chemically pure cream of tartar involved many experiments and great expense, which add largely, of course, to the cost of producing the Royal Baking Powder. But its manufacturers are amply rewarded in thus being able to give consumers a baking powder absolutely pure in all respects—the only absolutely pure baking powder made. In emphasis of this fact, the report of Prof. McMurtrie, late chief chemist for the United States Department of Agriculture at Washington, is given:

"I have examined the cream of tartar manufactured by the New York Tartar Company and used by the Royal Baking Powder Company in the manufacture of their baking powder, and found it perfectly pure and free from lime in any form.

"The Chemical tests to which I have submitted the Royal Baking Powder, prove it perfectly healthful and free from every deleterious substance.

Favorable Action on Kay's Change-of-Venue Bill—The Train-Pay Bill Passes the Senate.

A Move You Can Go to Senator—No Public Action Expected Till Next Week.

SPRINGFIELD, Ill., April 6.—[Special.]—The Senate today advanced a number of important measures to third reading, among those most likely to excite public interest being the bill to abolish the present Board of Police Commissioners and vest the power in the Governor, which was done by motion of the author, and is now known as Gilbert's Envisages bill, and the bill for the appropriation for the current expenses of the Southern Illinois Normal School. Senator Snyder gave notice that when the bill coming up he would move to strike out the enacting clause, saying it was the State School which got along without any appropriation at all, and asking an appropriation of $50,000 to an institution in the interest of the Southern Normal is an open insult to the people of the State.
